

# Help us feed thousands of vulnerable people every month without asking anyone for a donation

Kenshi Life Changing Candles is the story of a 14 year old boy from Melbourne who wanted to change the world. Liam started a Social Enterprise and created a "perfect" candle of the highest possible quality.

Every candle funds a huge 3kg of pasta (6 packs!) for Foodbank which is the equivalent of 12 meals! Since 2019, every candle has been hand poured in Melbourne by refugees from Myanmar providing desperately needed income.

## Please accept our display stand in your waiting room.

- You do not handle any money as candles are purchased direct from the stand with everyone using their phone to make payment. It is a simple honesty system.
- Each month we update your team with how many candles have been sold, and how much food for vulnerable people the stand has funded.
- Your staff enjoy a \$5.10 discount per candle.
- Your employees and clients will think it is fantastic you are making it easy for them to feed disadvantaged people. We all buy gifts and want to help anyone who is struggling to pay for food they need.

# Life Changing Candles

After 4 years and over 30,000 candles sold, Kenshi has helped raise over two hundred thousand dollars for many different causes.

As the demand grew Liam struggled to keep up with production. In 2019, Liam was introduced to the Chin refugee community from Myanmar who live in St Albans. Since then the Chins have been a fantastic partner to Liam and hand pour all the candles. This creates much needed income for this community to support family and friends still living under harsh military regime.

*The first ever "Kenshi pour" in the family kitchen when Liam had just turned 15*

**Please help us find more places to display these inspiring candles. The display stands are perfectly suited to be placed in**

- a) any waiting room**
- b) offices of larger companies**
- c) school staff rooms**
- d) gyms and cafes**

## A Message from Liam

I created Kenshi Life Changing Candles as a Social Enterprise to make it easy for any person, club, school, charity or business to raise money through the sale of a beautiful, popular item.

As a young person growing up in a wealthy city like Melbourne, I found most people honestly want to help others, but the hectic demands of life can make it hard for people to give back regularly.

I realised that my candles could help the most amount people if they were of the very highest quality. Everything relies on people buying the candles again and again so that huge amounts of money can be raised.

Creating a "perfect" candle took me 3 months of research and testing. My promise to you is a Kenshi candle will always be hand-poured and contain the highest grade natural soy wax and essential oils along with cotton wicks. The aroma lasts to the very last minute because we add an average of 9% of essential oils to our wax which is roughly double the big brands.

I hope you feel great knowing you have funded 12 meals for people in our community doing it tough.

*Liam Foldi*
